General Information

To avoid damaging the television set please observe the following safety instructions during setup and use.

Cleaning the television set	Before cleaning, disconnect the television set. Use only a soft damp cloth or a special cleaning product for flat-screens.
LED Display	Too much pressure on the screen can damage the television set.
Heat/damp/humidity	The television set should not be exposed to high temperatures (radiators, open fire). The television set should not be used in areas with high humidity.
Condensation	If moved from a cool area to one with a higher temperature, the television set should be left for at least an hour before plugging it in. A rapid change of temperature can lead to the formation of condensation in the television set itself. This can lead to damage if the television set is in use.
Air Circulation	To prevent overheating of the television set the ventilation slots at the rear should always be clear.
Small Objects	It is important to ensure that no small objects or liquids enter the television set. They can cause damage or even fire.
Liquids/Candles	Do not place anything holding a liquid or any candles on the television set.
Crushing	Take care to avoid crushing fingers or other objects when turning the television set in any direction.
Electric Supply	Use the television set only with the voltage indicated in the specifications. Ensure that there is easy access to the plug and that the television set can always be disconnected from the electricity supply. Do not disconnect the television set by pulling the power cable. Always take hold of the plug. The power cable must not be kinked or placed over sharp edges.
Moving the Television Set	When moving the television set, hold only the casing.
Repairs/Accessories	Repairs and servicing must be undertaken only by authorised and trained personnel.
	In accordance with the Batteries Regulation, batteries are to be disposed of only in containers provided for this purpose.

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

In extreme weather (storms, lightning) and long inactivity periods (going on holiday) disconnect the TV set from the mains. The mains plug is used to disconnect TV set from the mains and therefore it must remain readily operable. If the TV set is not disconnected electrically from the mains, the device will still draw power for all situations even if the TV is in standby mode or switched off.

IMPORTANT - Please read these instructions fully before installing oroperating
WARNING: Never let people (including children) with reduced physical, sensory or
mental capabilities or lack of experience and / or knowledge use electrical devices
unsupervised.

- The TV set is intended for Outdoor and similar general use but may also be used in public places.
- For ventilation purposes, leave at least 5cm of free space around the TV.
- The ventilation should not be impeded by covering or blocking the ventilation openings with items, such as newspapers, table-cloths, curtains, etc.
- The power cord plug should be easily accessible. Do not place the TV, furniture, etc. on
- the power cord. A damaged power cord/plug can cause fire or give you an electric shock. Handle the power cord by the plug, do not unplug the TV by pulling the power cord. Never touch the power cord/plug with wet hands as this could cause a short circuit or electric shock. Never make a knot in the power cord or tie it with other cords. When damaged it must be replaced, this should only be done by qualified personnel.
- Do not expose the TV to dripping or splashing of liquids and do not place objects filled with liquids, such as vases, cups, etc. on or over the TV (e.g., on shelves above the unit).
- Do not do not place open flames such as lit candles on the top of or near the TV.
- Do not place any heat sources such as electric heaters, radiators, etc. near the TV set.
- Do not place the TV on the floor and inclined surfaces.
- To avoid danger of suffocation, keep plastic bags out of the reach of the babies, children and domestic animals.
- Do not dispose of the batteries in fire or with hazardous or flammable materials.
- Warning: Batteries must not be exposed to excessive heat such as sunshine, fire or the like.
- If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

WARNING
Never place a television set in unstable or inclined locations. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such, Educating children about the dangers of climbing on furniture to reach the television set or its controls.

WALL MOUNTING WARNINGS
Read the instructions before mounting your TV on the wall.
The wall mount kit is optional.
Do not install the TV on a ceiling or on an inclined wall.
Use the specified wall mounting screws and other accessories.
Tighten the wall mounting screws firmly to prevent the TV from fall. Do not over-tighten the screws.

WARNING
This is not a recessed installable TV, Do not insert TV into the wall.

Signal Information (Used only in DTV)
1. Press ▲/▼ key to select "Signal Information" option.
2. Press "ENTER"or ► key, you can see the information of the DTV channel.
NOTE:
Signal Quality/Signal Strength (DTV Only): Unlike analogue channels, which can vary in reception quality, digital channels must have perfect reception quality or you will not receive them at all. So, unlike analogue channels, you are not able fine tune a digital channel. If the signal strength indicates that the signal is weak, a possible solution is to adjust your antenna to increase the signal strength. Continue to adjust the antenna until you find the best position with the strongest signal.

Troubleshooting

Problem	Possible cause	Possible solution
No picture and sound.	• The power adaptor is not plugged in or not working. • The wrong input source is selected. • The input source has failed to connect with the TV or is not turned on.	• Plug the power into a suitable outlet. • Select the correct input source. • Make sure the input source is correctly connected and turned on.
No sound.	• The volume control is set to minimum. • The mute ⫷ button on the remote control has been pressed • An incorrect sound system mode is set.	• Press the ⫸ button to increase the volume. • Press ⫷ or the (or ⫸) button to restore/increase the volume. • Set a correct sound system mode from the main menu to match your TV source.
No picture, or monochrome picture only.	• The colour system setting does not match the program. • The sound system setting does not match the program.	• Select the appropriate colour system setting. • Select the appropriate sound system setting. (If unsure, use Auto settings where available).
Sound or picture interference.	• Some equipment that causes interference is close to the TV. • More than one device is plugged into the same power outlet. • An incorrect sound system mode is set.	• Keep interference-causing equipment away from the TV. • Plug the power adaptor into another, separate power outlet. • Set a correct sound system mode from the main menu to match your TV source.
PVR recording failed, or "DISK NOT READY" is displayed.	• You may not have removed your USB device after the last recording, which is necessary to protect the device from damage.	• Remove the USB device after each recording if you experience recording problems. If "DISK NOT READY" is displayed, remove the device, reconnect and then proceed with your recording.

Problem	Possible cause	Possible solution
DTV Picture Pixelation	• Poor Signal	• Adjust the position or orientation of the TV antenna. • Check the antenna connection from the wall plate to the TV. • Try re-tuning the channels as the channel frequencies may be different in some areas.
